

JOURNAL OF CLINICAL MICROBIOLOGY

Volume 32

September 1994

No. 9

BACTERIOLOGY

| | | |
|--|--|-----------|
| Demonstration of Circulating Group B Streptococcal Immune Complexes in Neonates with Meningitis | Jesús G. Vallejo, Carol J. Baker, and Morven S. Edwards | 2041-2045 |
| Clinical Comparison of Isolator and Thiol Broth with ESP Aerobic and Anaerobic Bottles for Recovery of Pathogens from Blood | J. A. Kellogg, D. A. Bankert, J. P. Manzella, K. S. Parsey, S. L. Scott, and S. H. Cavanaugh | 2050-2055 |
| Evaluation of RapiDEC Staph for Identification of <i>Staphylococcus aureus</i>, <i>Staphylococcus epidermidis</i>, and <i>Staphylococcus saprophyticus</i> | William M. Janda, Kathy Ristow, and Denise Novak | 2056-2059 |
| Application of Typing by Pulsed-Field Gel Electrophoresis to the Study of <i>Clostridium difficile</i> in a Neonatal Intensive Care Unit | Haru Kato, Naoki Kato, Kunitomo Watanabe, Kazue Ueno, Hiroshi Ushijima, Shintaro Hashira, and Toshiaki Abe | 2067-2070 |
| Spread and Maintenance of a Dominant Methicillin-Resistant <i>Staphylococcus aureus</i> (MRSA) Clone during an Outbreak of MRSA Disease in a Spanish Hospital | M. Angeles Dominguez, Herminia de Lencastre, Josefina Linares, and Alexander Tomasz | 2081-2087 |
| Controlled Evaluation of 5 versus 10 Milliliters of Blood Cultured in Aerobic BacT/Alert Blood Culture Bottles | Melvin P. Weinstein, Stanley Mirrett, Michael L. Wilson, Larry G. Reimer, and L. Barth Reller | 2103-2106 |
| Concordance of Endotoxemia with Gram-Negative Bacteremia in Patients with Gram-Negative Sepsis: a Meta-Analysis | James C. Hurley | 2120-2127 |
| Genital Flora in Pregnancy and Its Association with Intrauterine Growth Retardation | Marc Germain, Marijane A. Krohn, Sharon L. Hillier, and David A. Eschenbach | 2162-2168 |
| Rapid Detection of Vancomycin-Resistant Enterococci | Stephen C. Edberg, Catherine J. Hardalo, Christine Kontnick, and Sheldon Campbell | 2182-2184 |
| Characterization of Strains of <i>Neisseria meningitidis</i> Recovered from Complement-Sufficient and Complement-Deficient Patients in the Western Cape Province, South Africa | A. Orren, D. A. Caugant, C. A. P. Fijen, J. Dankert, E. J. van Schalkwyk, J. T. Poolman, and G. J. Coetzee | 2185-2191 |
| Comparison of Sensititre Broth Microdilution and Agar Dilution Susceptibility Testing Techniques for Meropenem To Determine Accuracy, Reproducibility, and Predictive Values | Michael J. Dowzicky, Harriette L. Nadler, and Waheed Sheikh | 2204-2207 |
| Evaluation of Two BBL Crystal Systems for Identification of Some Clinically Important Gram-Negative Bacteria | B. Holmes, M. Costas, T. Thaker, and M. Stevens | 2221-2224 |
| Comparison of PCR with Culture for Detection of <i>Ureaplasma urealyticum</i> in Clinical Samples from Patients with Urogenital Infections | Kui Teng, Muyiao Li, Wanfang Yu, Houjun Li, Dawei Shen, and Dexiang Liu | 2232-2234 |
| Comparison of Three Commercial MIC Systems, E test, Fastidious Antimicrobial Susceptibility Panel, and FOX Fastidious Panel, for Confirmation of Penicillin and Cephalosporin Resistance in <i>Streptococcus pneumoniae</i> | Karen K. Krisher and Andrea Linscott | 2242-2245 |
| Nosocomial Infection by <i>Staphylococcus haemolyticus</i> and Typing Methods for Epidemiological Study | J. E. Degener, M. E. O. C. Heck, W. J. van Leeuwen, C. Heemskerk, A. Crielaard, P. Joosten, and P. Caesar | 2260-2265 |

Continued on following page

Continued from preceding page

| | | |
|--|---|-----------|
| Opacification of Middlebrook Agar as an Aid in Distinguishing <i>Nocardia farcinica</i> within the <i>Nocardia asteroides</i> Complex | Mara Carson and Andrew Hellyar | 2270–2271 |
| Case Report and Review of Septicemia Due to <i>Serratia ficaria</i> | H. Darbas, H. Jean-Pierre, and J. Paillisson | 2285–2288 |
| Confirmation of Human <i>Campylobacter concisus</i> Isolates Misidentified as <i>Campylobacter mucosalis</i> and Suggestions for Improved Differentiation between the Two Species | Stephen L. W. On | 2305–2306 |
| Demonstration of <i>Borrelia burgdorferi</i> DNA in Urine Samples from Healthy Humans Whose Sera Contain <i>B. burgdorferi</i>-Specific Antibodies | Helge Karch, Hans-Iko Huppertz, Matthias Böhme, Herbert Schmidt, Dieter Wiebecke, and Andreas Schwarzkopf | 2312–2314 |
| Evaluation of E Test as a Rapid Method for Determining MICs for Nutritionally Variant Streptococci | Christopher P. Douglas, Steven Siarakas, and Thomas Gottlieb | 2318–2320 |
| Demonstration of Persistence of <i>Salmonella typhimurium</i> in an AIDS Patient by Molecular Methods | Alberto E. Fica, Harold W. Horowitz, Hermy Lior, and Felipe C. Cabello | 2327–2330 |
| <i>Hafnia alvei</i> in Stool Specimens from Patients with Diarrhea and Healthy Controls | Jouko Ridell, Anja Siitonen, Lars Paulin, Leena Mattila, Hannu Korkeala, and M. John Albert | 2335–2337 |

CHLAMYDIOLOGY AND RICKETTSIOLOGY

| | | |
|---|---|-----------|
| Western Immunoblot Analysis of <i>Ehrlichia chaffeensis</i>, <i>E. canis</i>, or <i>E. ewingii</i> Infections in Dogs and Humans | Yasuko Rikihisa, S. A. Ewing, and J. C. Fox | 2107–2112 |
| A 1-Year Evaluation of Syva MicroTrak <i>Chlamydia</i> Enzyme Immunoassay with Selective Confirmation by Direct Fluorescent-Antibody Assay in a High-Volume Laboratory | Edward L. Chan, Ken Brandt, and Greg B. Horsman | 2208–2211 |

MYCOBACTERIOLOGY AND AEROBIC ACTINOMYCETES

| | | |
|--|--|-----------|
| Rendering of Mycobacteria Safe for Molecular Diagnostic Studies and Development of a Lysis Method for Strand Displacement Amplification and PCR | Peter Zwadyk, Jr., James A. Down, Nancy Myers, and Margaret S. Dey | 2140–2146 |
| Rapid Discrimination of <i>Mycobacterium tuberculosis</i> Strains by Random Amplified Polymorphic DNA Analysis | C. J. Linton, H. Jalal, J. P. Leeming, and M. R. Millar | 2169–2174 |

MYCOLOGY

| | | |
|---|---|-----------|
| Emergence of Fluconazole-Resistant Strains of <i>Candida albicans</i> in Patients with Recurrent Oropharyngeal Candidosis and Human Immunodeficiency Virus Infection | M. Ruhnke, A. Eigler, I. Tennagen, B. Geilseler, E. Engelmann, and M. Trautmann | 2092–2098 |
| Comparison of Broth Macrodilution, Broth Microdilution, and E Test Antifungal Susceptibility Tests for Fluconazole | David L. Sewell, Michael A. Pfaller, and Arthur L. Barry | 2099–2102 |
| Elimination of False-Positive Serum Reactivity in Latex Agglutination Test for Cryptococcal Antigen in Human Immunodeficiency Virus-Infected Population | Susan Whittier, Roy L. Hopfer, and Peter Gilligan | 2158–2161 |
| Strain Relatedness of <i>Candida albicans</i> Strains Isolated from Children with Leukemia and Their Bedside Parents | Matsuko Doi, Michio Homma, Shin-Ichi Iwaguchi, Keizo Horibe, and Kenji Tanaka | 2253–2259 |
| High Frequency of Yeast Carriage on Hands of Hospital Personnel | Larry J. Strausbaugh, David L. Sewell, Thomas T. Ward, Michael A. Pfaller, Teri Heitzman, and Rita Tjoelker | 2299–2300 |

Continued on following page

Continued from preceding page

- First Report of Involvement of *Nodulisporium* Species in Human Disease** Gary M. Cox, Wiley A. Schell, Richard L. Scher, and John R. Perfect 2301–2304
- Effect of Potential Interference Factors on Performance of Enzyme Immunoassay and Latex Agglutination Assay for Cryptococcal Antigen** Howard D. Engler and Yvonne R. Shea 2307–2308
- Evaluation of New Monoclonal Antibody-Based Latex Agglutination Test for Detection of Cryptococcal Polysaccharide Antigen in Serum and Cerebrospinal Fluid** Deanna L. Kiska, Deborah R. Orkiszewski, Donna Howell, and Peter H. Gilligan 2309–2311

PARASITOLOGY

- Diagnosis of Cutaneous Leishmaniasis and Species Discrimination of Parasites by PCR and Hybridization** Noris Rodríguez, Bernardo Guzman, A. Rodas, Howard Takiff, Barry R. Bloom, and Jacinto Convit 2246–2252
- Usefulness of PCR for Detection of *Pneumocystis carinii* DNA** P. Roux, I. Lavrard, J. L. Poirot, C. Chouaid, M. Denis, J. L. Olivier, M. Nigou, and M. Miltgen 2324–2326

VIROLOGY

- Evaluation of Two Commercial Human T-Cell Lymphotropic Virus Western Blot (Immunoblot) Kits with Problem Specimens** Dana Gallo, Janice L. Diggs, and Carl V. Hanson 2046–2049
- Transient Antibody Responses to Hepatitis E Virus Detected by Western Immunoblot Using Open Reading Frame 2 and 3 and Glutathione S-Transferase Fusion Proteins** Fan Li, Hui Zhuang, Sotirios Kolivas, Stephen A. Locarnini, and David A. Anderson 2060–2066
- Analysis of Sera Indeterminate by Ortho-HCV RIBA-2 by Using Three Confirmatory Assays for Anti-Hepatitis C Virus Antibody** E. Dussaix, N. Charnaux, P. Laurent-Puig, S. Chopineau, Y. Laurian, and C. Buffet 2071–2075
- Reverse Transcription-PCR Detection of LaCrosse Virus in Mosquitoes and Comparison with Enzyme Immunoassay and Virus Isolation** Leonard P. Wasieloski, Jr., Alfredo Rayms-Keller, Laura A. Curtis, Carol D. Blair, and Barry J. Beaty 2076–2080
- Comparison of Methods for Detection of Hepatitis B Virus DNA** H. L. Zaaijer, F. ter Borg, H. T. M. Cuypers, M. C. A. H. Hermus, and P. N. Lelie 2088–2091
- Comparison of Four Enzyme Immunoassays for Detection of Immunoglobulin M Antibodies against Rubella Virus** Lukas Matter, Meri Gorgievski-Hrisoho, and Daniel Germann 2134–2139
- Quantification of Human Immunodeficiency Virus Type 1-Infected Mononuclear Cells in Peripheral Blood of Seropositive Subjects by Newly Developed Flow Cytometry Analysis of the Product of an In Situ PCR Assay** Maria C. Re, Giuliano Furlini, Davide Gibellini, Monica Vignoli, Eric Ramazzotti, Simona Lolli, Sergio Ranieri, and Michele La Placa 2152–2157
- Immunoaffinity Purification of Baculovirus-Expressed Rubella Virus E1 for Diagnostic Purposes** Christer Lindqvist, Michel Schmidt, Johanna Heinola, Risto Jaatinen, Monica Österblad, Aimo Salmi, Sirkka Keränen, Karl Åkerman, and Christian Oker-Blom 2192–2196
- Stabilities of Quantitative Plasma Culture for Human Immunodeficiency Virus, RNA, and p24 Antigen from Samples Collected in VACUTAINER CPT and Standard VACUTAINER Tubes** Larry Mole, Dan Margolis, Richard Carroll, John Todd, and Mark Holodniy 2212–2215

Continued on following page

Continued from preceding page

- Comparison of Peptide Enzyme-Linked Immunosorbent Assay and Radioimmunoprecipitation Assay with In Vitro-Translated Proteins for Detection of Serum Antibodies to Human Papillomavirus Type 16 E6 and E7 Proteins** 2216–2220
Yeping Sun, Keerti V. Shah, Martin Müller, Nubia Muñoz, Xavier F. Bosch, and Raphael P. Viscidi
- Early Detection of Anti-HCc Antibody in Acute Hepatitis C Virus (HCV) by Western Blot (Immunoblot) Using a Recombinant HCV Core Protein Fragment** 2235–2241
Chau-Ting Yeh, Chia-Min Han, Shih-Yen Lo, Jing-Hsiung Ou, Kong-Dee Fan, I-Shyan Sheen, Chia-Ming Chu, and Yun-Fan Liaw
- Comparison of Plasma PCR and Bronchoalveolar Lavage Fluid Culture for Detection of Cytomegalovirus Infection in Adult Bone Marrow Transplant Recipients** 2266–2269
Mary M. Aspin, Ghislaine M. Gallez-Hawkins, Terrence D. Giugni, Bernard Tegtmeier, David J. Lang, Gerhard M. Schmidt, Stephen J. Forman, and John A. Zaia
- Evaluation of Third-Generation Assays for Detection of Anti-Hepatitis C Virus (HCV) Antibodies and Comparison with Presence of HCV RNA in Blood Donors Reactive to c100-3 Antigen** 2272–2275
D. Lavanchy, C. Mayerat, B. Morel, P. Schneider, C. Zufferey, J.-J. Gonvers, A. Pécoud, and P. C. Frei
- Analysis of Hepatitis C Virus Isolates among Healthy Blood Donors and Drug Addicts in Chiang Mai, Thailand** 2276–2279
Chatchawann Apichartpiyakul, Charoon Chittivudikarn, Hirofumi Miyajima, Morio Homma, and Hak Hotta
- Distribution of Viral Genotypes in Italy Determined by Hepatitis C Virus Typing by DNA Immunoassay** 2280–2284
Antonella Ravaggi, Antonella Zonaro, Maria Grazia Marin, Massimo Puoti, Alberto Albertini, and Elisabetta Cariani
- Simultaneous Culture for Adenovirus, Cytomegalovirus, and Herpes Simplex Virus in Same Shell Vial by Using Three-Color Fluorescence** 2289–2290
Brenda G. Brumback and C. Diane Wade
- Standardized Microtiter Assay for Determination of Syncytium-Inducing Phenotypes of Clinical Human Immunodeficiency Virus Type 1 Isolates** 2291–2294
Anthony J. Japour, Susan A. Fiscus, Jean-Marie Arduino, Douglas L. Mayers, Patricia S. Reichelderfer, and Daniel R. Kuritzkes
- Detection of Human Parvovirus B19 DNA PCR Products by RNA Probe Hybridization Enzyme Immunoassay** 2295–2298
D. D. Erdman, E. L. Durigon, and B. P. Holloway
- Rotavirus Serotypes Causing Severe Acute Diarrhea in Young Children in Six Australian Cities, 1989 to 1992** 2315–2317
Paul J. Masendycz, Leanne E. Unicomb, Carl D. Kirkwood, and Ruth F. Bishop
- Genome Analysis of South American Adenovirus Strains of Serotype 7 Collected over a 7-Year Period** 2321–2323
Adriana Kajon and Göran Wadell
- Quantitative Colorimetric Microneutralization Assay for Characterization of Adenoviruses** 2331–2334
Leta K. Crawford-Miksza and David P. Schnurr

CLINICAL VETERINARY MICROBIOLOGY

- Differentiation of *Salmonella* Serovar Infantis Isolates from Human and Animal Sources by Fingerprinting IS200 and 16S *rrn* Loci** 2128–2133
Sinikka Pelkonen, Eeva-Liisa Romppanen, Anja Siitonen, and Jukka Pelkonen
- Detection of *Ehrlichia risticii* from Feces of Infected Horses by Immunomagnetic Separation and PCR** 2147–2151
Biswajit Biswas, Ramesh Vemulapalli, and Sukanta K. Dutta
- A Simple, Specific, and Highly Sensitive Blocking Enzyme-Linked Immunosorbent Assay for Detection of Antibodies to Bovine Herpesvirus 1** 2175–2181
J. A. Kramps, J. Magdalena, J. Quak, K. Weerdmeester, M. J. Kaashoek, M. A. Maris-Veldhuis, F. A. M. Rijsewijk, G. Keil, and J. T. van Oirschot

Continued on following page

Continued from preceding page

- Detection of Porcine Reproductive and Respiratory Syndrome Virus and Efficient Differentiation between Canadian and European Strains by Reverse Transcription and PCR Amplification** Helmi Mardassi, Louise Wilson, Samir Mounir, and Serge Dea 2197–2203
- Development of Nested PCR Assays for Detection of Bovine Respiratory Syncytial Virus in Clinical Samples** Š. Vilček, M. Elvander, A. Ballagi-Pordány, and S. Belák 2225–2231

EPIDEMIOLOGY

- Efficacy of Microbial Identification System for Epidemiologic Typing of Coagulase-Negative Staphylococci** David Birnbaum, Loreen Herwaldt, Donald E. Low, Michael Noble, Michael Pfaller, Robert Sherertz, and Anthony W. Chow 2113–2119

LETTERS TO THE EDITOR

- Tox-A Test for *Clostridium difficile*** Tracy D. Wilkins and David M. Lysterly 2338
- Additional Data on Clinical Isolates of *Campylobacter mucosalis*** A. J. Lastovica, Elza Le Roux, Rob Warren, and Horst Klump 2338
- Pitfalls in Immunoblot Detection of *Aspergillus* Antigens Associated with Invasive Infection** Luc M. Wijnands, Frans M. van Leusden, Rob J. T. Puyk, Marcel P. M. Hofstee, and H. W. Boudewijn Engel 2339
- Utility of Quantitative Enzyme Immunoassay Reactivity for Predicting Human Immunodeficiency Virus Seropositivity in Low- and High-Prevalence Populations** Frank J. Michalski 2340
- E Test as Susceptibility Test for Evaluation of *Neisseria meningitidis* Isolates** Emilio Pérez-Trallero, Nieves Gomez, and José Maria García-Arenzana 2341–2342

ERRATA

- Evaluation of Specificity of Indirect Enzyme-Linked Immunosorbent Assay for Diagnosis of Human Q Fever** Iyorlumun J. Uhaa, Daniel B. Fishbein, James G. Olson, Cornelia C. Rives, David M. Waag, and Jim C. Williams 2343
- Comparison of Four Immunoserologic Assays for Detection of Antibodies to *Borrelia burgdorferi* in Patients with Culture-Positive Erythema Migrans** Paul D. Mitchell, Kurt D. Reed, Teresa L. Aspeslet, Mary F. Vandermause, and John W. Melski 2343
