The *Journal of Clinical Microbiology*, a publication of the American Society for Microbiology, 1913 I St., N. W., Washington, D.C. 20006, is devoted to the dissemination of new knowledge concerning the applied microbiological aspects of human and animal infections and infestations, particularly regarding their etiologic agents, diagnosis, and epidemiology. Papers dealing with antibiotics and antimicrobial agents and chemotherapy, with fundamental aspects of infection and immunity, and with food or dairy microbiology fall within the scope of other ASM publications. Instructions to Authors are published in the January issue each year. The *Journal* is published monthly, and the twelve numbers are divided into two volumes per year. The nonmember subscription price is \$60 per year. The member subscription price is \$15 per year. Single copies are \$6. Correspondence relating to subscription, reprints, defective copies, availability of back issues, lost or late proofs, disposition of submitted manuscripts, and general editorial matters should be directed to the ASM Publications Office, 1913 I St., N. W., Washington, D.C., 20006 (area 202 833-9680).

Second-class postage paid at Washington, D.C. 20006, and at additional mailing offices.

The indispensable laboratory manual—

Manual of Clinical Immunology

Edited by Noel R. Rose and Herman Friedman

A joint effort by members of the American Society for Microbiology and the American Association of Immunologists

This definitive and much needed new book is a companion volume to the highly acclaimed *Manual of Clinical Microbiology*, 2nd Edition. It has been written to provide a current, comprehensive, and definitive source of information about the best methods for conducting specific immunological tests in laboratory immunology. It deals exclusively with the applications of immunology to the detection and analysis of a wide variety of diseases, including, but not limited to, those induced by microorganisms. The clinical interpretations of each procedure are detailed, and pitfalls and problems in performing the various analyses are discussed.

The contents, by section, are: Tests for humoral components of the immunological response — Tests for cellular components of the immunological response — Immunoassays — Bacterial, mycotic, and parasitic immunology — Viral, rickettsial, and chlamydial immunology — Immunohematology — Laboratory examination of patients with allergic and immunodeficiency diseases — Autoimmune diseases — Tumor immunology — Transplantation immunology — Licensure and certification programs in clinical immunology laboratories.

Publication date: 16 August 1976. 932 pages. Available in two bindings:

Cloth, at \$20.00 (ISBN: 0-914826-09-3). Flexible, at \$16.00 (ISBN: 0-914826-09-3).

(Note: Members of ASM may purchase this book at the special member discount price of \$12.00 cloth, \$10.00 flexible. Member purchases are for personal use only. Payment must accompany member orders.)
